

St Helena Secondary College

Car Parking and Traffic Flow

Car Parking

Visitors to the College will find parking spaces in the car park accessed through Entry 2 closest to the St Helena roundabout in Wallowa Road. From there it is a short walk to the College's Administration Building.

Traffic Flow

The College "drop off and pick up car-park" (Entry 2) is at the western end of the school property and should be used by parents in the mornings and afternoons.

Please note that:

- ◆ *Entry 2 is the drop off and pick up carpark*
- ◆ *Entry 1 is for buses or delivery vehicles only before and after school.*
- ◆ *Buses are the only vehicles allowed to turn right at the top of the drive way (see the map right).*

Many parents wish to drop off and collect their child/ren from school, however Wallowa Road can become very congested between 8.10am—8.25am and 2.45—3.10pm so their cooperation and care is needed during these busy times.

Your assistance in facilitating the smooth flow of traffic early mornings and mid afternoons is appreciated.

Buses

With students travelling to St Helena Secondary College from a broad geographical base, several buses are available to transport them to and from school.

Two buses are "route" buses that any student can access through paying a fare for the trip (Dyson's Bus to Greensborough and Panorama Bus between Eltham and Diamond Creek Stations). Six buses are dedicated St Helena buses and students must apply for a place on them. Student concession fees apply. Places are allocated late in the year when applications are received from current and newly enrolling students.
