## Privacy

---

When reporting on the school's performance to the school community, care must be taken to avoid the disclosure of information that can directly or indirectly identify an individual. This may be a particular issue when reporting on the achievement of specific cohorts of students or the opinions of staff where there are small numbers.

In situations where privacy cannot be assured, schools may wish to report on the mean result or provide a written comment on school, year level or cohort performance.

Where the School Level Report is provided to school council members as part of any annual reporting process, or used for discussion on a school's performance, such as in consultation with the school community in the school self-evaluation process, it is important to remind school community members of their duty to only use this information for the purpose it was provided, and that the material must be kept confidential.

It is important to note that information that identifies an individual or can be used with other readily available information to identify a person is now protected by the *Information Privacy Act 2000* (<http://www.education.vic.gov.au/about/deptpolicies/informationprivacy.htm>).

**School's 2008 SFO density and LBOTE proportion against that of all government schools**

**School's SFO<sup>^</sup> percentile range<sup>^^</sup> over time**

Notes: <sup>^</sup> The higher the SFO density, the lower the SFO percentile and the lower the socio-economic status (SES).  
<sup>^^</sup> The school's SFO percentile range shows the 20% of schools with an SFO Density most like this school.  
 \* From 2007, a student is LBOTE if either the student or one parent/guardian speaks a language other than English at home. Prior to 2007, a student is LBOTE if the student or one of the parents was born in a non-English speaking country.

# Teacher Judgments against the VELS - Mathematics (secondary)

School no: 8730

School name: St Helena Secondary College

Source of data: Data retrieved electronically from CASES21.

Explanation: Teacher judgments of student achievement against the VELS.

Notes: \* The school trendline is only plotted when there is data for each calendar year.  
 \*\* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.  
 ^ The cutoff between grades A and B changed in 2007. Further information is available on the following website: <http://www.education.vic.gov.au/studentlearning/studentreports/schools/whatsnew.htm>.  
 ^^ 2008 benchmarks and percentiles will be calculated in August, when data from all schools has been submitted.

shading indicates a 'C' grade (at the expected standard) on the VELS scale.

<sup>1</sup> The total number of students eligible to be assessed. This figure will typically match, or be very close to, the Year Level enrolment.

<sup>2</sup> The number of students assessed against the VELS. The difference between this figure and the total (1) should be accounted for by students assessed against Individual Learning Plans and/or the ESL companion in the case of English.

\* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.

<sup>^</sup> 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

shading indicates a 'C' grade (at the expected standard) on the VELS scale.

<sup>1</sup> The total number of students eligible to be assessed. This figure will typically match, or be very close to, the Year Level enrolment.

<sup>2</sup> The number of students assessed against the VELS. The difference between this figure and the total (1) should be accounted for by students assessed against Individual Learning Plans and/or the ESL companion in the case of English.

\* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.

<sup>^</sup> 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

shading indicates a 'C' grade (at the expected standard) on the VELS scale.

<sup>1</sup> The total number of students eligible to be assessed. This figure will typically match, or be very close to, the Year Level enrolment.

<sup>2</sup> The number of students assessed against the VELS. The difference between this figure and the total (1) should be accounted for by students assessed against Individual Learning Plans and/or the ESL companion in the case of English.

\* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.

<sup>^</sup> 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

shading indicates a 'C' grade (at the expected standard) on the VELS scale.

<sup>1</sup> The total number of students eligible to be assessed. This figure will typically match, or be very close to, the Year Level enrolment.

<sup>2</sup> The number of students assessed against the VELS. The difference between this figure and the total (1) should be accounted for by students assessed against Individual Learning Plans and/or the ESL companion in the case of English.

\* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.

<sup>^</sup> 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

# Real Student Retention

School no: 8730

School name: St Helena Secondary College

Explanation: Real retention rates show the percentage of students who have been enrolled at the same school over a period of time.

For example, the formula for the real retention rate for Year 7Feb to 10Aug for school X in 2008 is as follows:

$$\frac{\text{(no. of students enrolled in Yr10 in school X as at August 2008 census and who enrolled prior to 1/3/2005, ie, enrolled in school X at beginning of Yr7)}}{\text{(enrolments in Yr7 Feb in 2005 according to census)}}$$

By definition, real school retention will be less than or equal to 100% (assuming there are no students repeating the year, or accelerating through years). Generally, real school retention rates are affected by students transferring to another school & students exiting the school system. They are a measure of the 'holding power' of the school.

Source of data: Data retrieved electronically from CASES21 at time of rollover.

Notes: \* The school trendline is only plotted when there is data for each calendar year.  
^ 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

Notes: \* The school trendline is being trialled. It is only plotted when there is data for each calendar year.

† Includes deceased students.

^ 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

# On Track

Source of data: Data received from a telephone survey of Year 12 completers, conducted in April / May of the subsequent year.

School only

Note: The exit destination data from On Track and CASES21 is not directly comparable for several reasons, one of which is the different bases. CASES21 data is based on all Year 12 completers, whereas On Track is based on Year 12 completers who responded to the survey. Hence the CASES21 data has an "unknown" category and the On Track data does not. Another reason is the slightly different categories for example, CASES21 includes a "home schooling" category.

## School Mean against Secondary State Mean

Notes: \* The school trendline is plotted when there is data for each calendar year.

^ Benchmarks available for Primary, Secondary, Pri/Sec, Special and SDS schools.

\*\* If there were 6 or less respondents, table data is not shown for confidentiality reasons. If there were 3 or less respondents, graph data is not shown for confidentiality reasons.

^ Parents' responses to all negatively phrased questions have been reversed for reporting purposes. Across all variables, the higher the score or percentile rank, the more positive parents' perceptions.

# Performance & Development Culture (P&DC)<sup>††</sup>

NEW

**School no:** 8730  
**School name:** St Helena Secondary College  
**Explanation:** The data on this page refers to the Staff Opinion Survey.  
**Source of data:** Data transmitted from school staff to DEECD via an online survey application.

## School Mean against Secondary State Median

- Notes:
- †† An assessment of the correlation between the P&DC Questionnaire and the Staff Opinion Survey was undertaken using data from Victorian Government schools that completed both surveys from 2005 to 2007 (ie. 699 schools). This led to the identification of the components of the Staff Opinion Survey that could be used to assist schools with the ongoing monitoring of their performance and development culture. Refer to the P&DC website for further information: <http://www.education.vic.gov.au/management/schoolimprovement/panddc/default.htm>. For numerical results relating to the above graph, refer to the Staff Opinion Survey page in this report.
  - † Note that there is no significant correlation between the Staff Opinion Survey and P&DC elements 1 (Induction) and 3 (Customised Individual Development Plans).
  - ^ The P&DC threshold was derived from the P&DC Questionnaire 'percent favourable' methodology where a school is considered at the standard of accreditation when their Element score is >75% favourable (ie. at least 75% of staff selected the top two response categories in the P&DC Questionnaire).
  - \* The school trendline is only plotted when there is data for each calendar year.
  - \*\* If there were 3 or less respondents, graph data is not shown for confidentiality reasons.
  - ^^ Benchmarks are available for Primary, Secondary, Pri/Sec, Special & SDS schools.
